INTRODUCTION TO THE ENNEAGRAM
ONE DAY WORKSHOP - 18TH SEPTEMBER 2015

• What are your personal strategies for relationship/workplace success?
• What are your patterns that bring you undone... again & again & again?
• What really drives you?
• What motivates those around you?

The Enneagram is a powerful tool describing nine distinctly different personality profiles.

Individuals & organisations depend on people relating co-operatively. The Enneagram is an invaluable tool for creating more effective styles of communication & understanding in our personal lives as well as our workplace. It improves management, communication, productivity, motivation and personal development.

The Enneagram extends far beyond personality type descriptions by getting to the very heart of how people operate ... by understanding our internal drivers and motivations.

Put knowledge & insights to work... Apply learnings to relationships, work, teams and leadership.
"Fine tune" yourself for effectiveness & understand:
• 9 motivational drivers in teams, leadership and relationships;
• 9 different communication patterns and how to ensure all are "heard";
• 9 ways people disagree and discover ways to unravel entrenched conflicts;
• 9 styles: strengths, limitations and how to ensure effectiveness;
• Benefits of NOT being constrained by type and options for behaving differently;
• Appropriate, immediate plans for fast-tracking personal development.

"The Enneagram is the single, most productive, insightful, and practical tool available to help us grasp the depth and complexity of human personality."

WITH THE ENNEAGRAM AT YOUR FINGER TIPS...

You will understand how your strengths & where your weakness lie. You will also be able to:
• Better manage different types of people
• Create improved relationships by sharpening your knowledge of self & others
• Communicate so others truly understand what you mean to say;
• Give feedback so others are less defensive;
• Prevent conflict, and handle disputes and misunderstandings more effectively;

PRESENTERS:

HILARY LANGFORD:

Hilary has built an impressive reputation throughout Australia and New Zealand, in the public, private and academic sectors. For over 30 years, she has specialised in the people aspects of organizational life including managing organisational change, leadership and staff development, and addressing team issues.
Hilary only teaches what is useful in practice. Her workshops are state-of-the-art yet address the real-life issues faced by organisation leaders and staff at all levels. Participants will find solutions to current issues that puzzle them, about themselves and others, in their workplace and at home.
Hilary has been presenting and using the Enneagram for many years to help people within organisations interact and work with each other more productively. She is certified as an Enneagram teacher through the Enneagram Professional Training Program under Helen Palmer and David Daniels MD, world exponents in the Enneagram.
Hilary received the Association for Tertiary Education Management (ATEM) President's Award in 2005, for services to ATEM and universities. Part of the citation reads, “Hilary's unique delivery style enthuses and inspires while she is providing knowledge and skills that really do add to the workplace abilities of ATEM members. The constant in Hilary's programs has been her commitment to, and focus on, people as individuals, and the need to win their hearts and minds when we face changes and challenges.”

LESLEY McPHERSON:

Lesley is a Gestalt Therapist in private practice in Sydney & the Southern Highlands. She is also a certified Enneagram teacher through the Enneagram Professional Training Program and has trained with many international teachers.
She has presented at National and International Conferences & worked with Not For Profit Organisations. This year she presented at the 2015 International Enneagram Conference in San Francisco. Her presentation explored how the Enneagram can help people successfully transform their lives as a result of facing major life transitions.
